Forecast for Thursday 18 Jul 2024

Weather: Largely cloudy in the early hours, but this breaking through the morning to leave a warm and dry day with plenty of sunny spells. Staying fine into the evening with some late sunshine to enjoy amongst patchy cloud.

Chance of cloud-free hill tops above 600m: 90% or higher.

Low cloud and visibility: Cloud remaining above the summits throughout the day with very good visibility of distant hills. The small chance of an isolated mist or fog patch in the valleys around dawn should any clear spells develop.

Meteorologist's View

It will be very warm for those exerting themselves, so please stay hydrated. Also remember that UV levels will be high and skin protection is advised.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 16 Jul 2024	5mm	9mm	9mm

Forecast for Friday 19 Jul 2024

Weather: The odd mist and fog patch possible in the valleys during the early hours, clearing quickly after dawn, whilst areas of low cloud may also fringe into the far west of the park in the early morning. Else, another dry day with prolonged periods of very warm sunshine. Potential for low cloud to return later in the evening.

Maximum wind: 15 mph southerly winds on the hills.

Chance of cloud-free hill tops above 600m: Mostly 90% or higher. Perhaps 70% in the west at the very start and end of the day.

Low cloud and visibility: Low cloud may cover slopes in the far west above 600 m at the start and end of the day. Outside of this, skies will be largely clear with any fair-weather cloud remaining above the summits. Very good visibility.

Temperature: **Valleys:** Plus 14 Celsius, rising to plus 22 Celsius.
At 600m: Plus 11 Celsius, rising to plus 18 Celsius.
Freezing level: Above the summits.
